PRINTABLE CHECKLIST

# Car emergency kit for winter

A car emergency kit should keep you warm, visible and in contact if you are stuck for several hours. Carry a blanket, a foil blanket, a torch, a phone charging cable, water, snacks, a warning triangle, a high-visibility vest and an ice scraper. A jump starter is a useful addition, especially in winter.

- [ ] Blanket for each regular passenger
- [ ] Foil blankets, hats and gloves
- [ ] Torch with spare batteries
- [ ] Warning triangle and high-visibility vests
- [ ] 12V USB charger and phone cable
