PRINTABLE CHECKLIST

Get blackout-ready in one evening

You can get blackout-ready in one evening by checking what you own against the government's Be Ready list, charging your power bank, filling water bottles and writing down 105 and your network operator. No blackout is planned or forecast, so anything missing can go on a shopping list for the coming weeks.

- [ ] Collect and test every torch and radio
- [ ] Charge power banks and rechargeable lights
- [ ] Count bottled water against 3 litres per person per day
- [ ] Check for three days of no-cook food
- [ ] Write down 105, network operator and load block letter
- [ ] Write down contacts and medication
- [ ] Do a ten-minute lights-off test
- [ ] Set a six-month reminder
