PRINTABLE CHECKLIST

Power cut checklist you can print

A good power cut checklist has four parts: things to set up before any cut, the first ten minutes, the hours while the power is off, and the checks when it returns. Print it and keep it with your torch, because the moment you need it is the moment your screen may not be an option.

- [ ] 105 and network operator written on paper
- [ ] Load block letter found and noted
- [ ] Priority Services Register checked
- [ ] Torch and spare batteries on each floor
- [ ] Power bank charged, cable with it
- [ ] Battery or wind-up FM radio
- [ ] Cash in notes and coins
- [ ] Paper list of contacts and medication
- [ ] Three days of water and no-cook food
- [ ] Kit checked every six months
